5. New Console Cabinet Design

LHIS new Brunswick combination serves well as an

index to the beauty of a new group of Panatropes with

Radiolas at Lyon & Healy's. Its exquisite walnut con-

sole is typical of the handsome cabinetry which these

new models evince. They are as good to look at as they

are endlessly entertaining . . . providing all the thrill

of radio and all the beauty of recorded music. They are

the joint creations of Brunswick and RCA-two names

that stand for the finest. This particular model is but

one of several which afford a wide choice of prices and

many new designs. Here only, in Chicago, can you

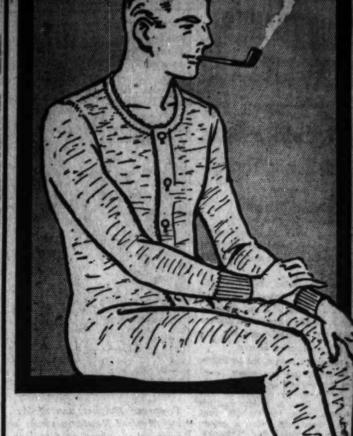

see, hear and compare them all, the new-Brunswicks.

You Can Own this Home for Less than Apartment Rent

Why be cramped and crowded—why throw good dollars after bad ones to buy nothing but shelter while you make a profit for a landlord? Why not put that money into a charming home of your own that will give you vastly more in living comfort and that will be a growing investment of the best and safest sort? Good sense answers with a dozen reasons "for" to every one "against."

At least you ought to investigate the place where such an amazing offer is made. When you see it, hear the startling story of its careful planning, its complete improvement and its steady progress, you'll say, "When I do get a home of my own, this will be the place."

And perhaps, while you may not want to build or buy a home just yet, you have a keen eye for profit from a conservative investment, or want to secure the site for a home to be built at later date. Then CUMBERLAND, with its complete improvements, its fine 29-minute-to-the-Loop transportation from a handsome new C. & N. W. station, will interest you also.

SHALL CITY BUY SCHOOL BONDS? OFFICIALS WORRY

Shall the city, in order to help the school board out of its financial dilemma, authorize the use of city funds to purchase \$6,000,000 worth of school tax anticipation warrants turned down by Chicago banking firms as legally unsound?

unsound?
This was the question facing Mayor Thompson, Corporation Counsel Ettelson, and the city council last night at the close of several conferences between school and city officials and a stormy meeting of the board of education at which the newly disclosed deficit in the educational fund was debated. Fear had been expressed flat

teachers' salaries in December.

The plan to appeal to the city for help was agreed upon at a meeting attended by H. Wallace Caldwell, president of the board; George K. Schmidt, city controller; Charles S. Peterson, city treasurer; Assistant Corporation Counsel Hornstein, and Ald. John S. Clark, chairman of the council finance

ucational fund was said to be about \$12,000,000, the amount needed for December was put at approximately \$9,000,000. County Treasurer Harding, before next Monday, 4s expected to turn over to the board \$3,000,000 and after Jan. 1, according to Ald. Clark, the 1829 budget will provide sufficient funds for school operation. The real emergency deficit, then, Ald. Clark said, is only \$6,000,000, about \$2,000,000 of which will be needed to meet the Dec. 4 teachers' pay roll and \$4,000,000 for the Dec. 20 teachers' pay roll.

Under the law the school board may issue anticipation warrants up

THE several thousand folks who partook of our Thanksgiving Feast last year will no doubt be with us this year. This ad then is directed to those for whom we have arranged for additional room and increased facilities to serve the greatest Thanksgiving Dinner in all Chicago.

The entire preparation of food will be as usual by our competent staff of cooks by profession and not a crew of hurriedly assembled cooks by accident hired to take care of additional business.

The thousands who were with us last year know that The thousands who were with us last year know that ours was a different kind of service—different environment, and different food. Turkeys were roasted in our huge electric ovens and turned out just fast enough to keep up with the demand and not roasted ahead. Food was served in ample portions, additional helpings were served without cost to those desiring it. The service was prompt, efficient and courteous. The "Sweet Cider Girls" were always on the job to keep the glasses filled with the finest sweet cider we could buy.

You will experience all of that and more this year, for we want you to enjoy this Thanksgiving Day at Gimbel's so that we may truly justify our motto-

Why Not This Christmas?

TET us call at your home and tell you the L trade-in value of your present piano. You may be agreeably surprised. It has served its purpose well—as any good piano should. Some one else, with a modest purse, would like to own it. But for some time, you have been ready for something a little better. Why not this Christmas? Christmas time is pianotime, the world around. This store is full of the new modern models that bear the proudest names in music, beginning with the Steinway. Here are just a few examples. In each case, a liberal allowance will be made for your old piano, and low monthly payments to suit you. In each case you have two years to pay for it. And in each case—note the small down payment. It is easy this Christmas!

A NEW POWERPLANT

-which makes every Packard a Packard Eight

THE new Packard eight-in-line powerplant for its 126 and 133-inch wheelbase models reflects Packard's 30 years of experience in building and servicing all types of motors.

In introducing this new motor Packard is but logically following its own engineering leadership. For Packard has pioneered the way in eight-in-line development - and the whole history of motor car engines during the pastsix years has been a tribute to Packard foresight.

The eight-in-line engine originated in Europe where it was developed by those manufacturers who have since unanimously abandoned the V-type for it. But Packard was the first prominent American maker to introduce it.

Packard's lead was promptly followed by other American builders. Whereas prior to 1923 thirty American manufacturers of multicylinder cars were making V-type motors, today there are but four - and only two of these producing in substantial quantities.

Whereas, previously, twenty-two European manufacturers had been marketing V-type motors, today not a single one, of all those who originally developed and had years of experience with the V-type, is still using it in stock car production.

Five years of constant study of the straight eight, based solidly on Packard's successful development of this type engine for its 136 and 143-inch wheelbase cars, had so firmly proved the basic merits of the eight-in-line principle that Packard decided to completely standardize on eights.

With the new motor Packard puts eightcylinder smoothness, power and performance at the command of thousands who in the past did not feel they could afford the supreme luxury of transportation which a Packard Eight provides.

The Packard Standard Eight 5-pass. Sedan costs only \$2435 at the factory.

You must see and drive this new motoravailable in a wide variety of beautiful new body models. We want you to experience its even flow of acceleration, its lack of any vibration period—at any speed—to note its clean and accessible design, its costly ninebearing crankshaft construction, insuring ruggedness and long life, its compactness, which permits the same roominess of body interior allowed by the six-cylinder engine on the same wheelbase.

And when you drive the new Packard Eight you will gain also a totally new understanding of what riding comfort means—the effect of the Packard Shock Absorbing Systeman engineering achievement in itself which surpasses in importance any recent development in the entire industry.

You may demonstrate this new Packard at any time. Come in or phone and one will be placed at your disposal. We promise you sheer luxury of riding ease which will surpass anything you have ever experienced.

Chicago Judge Sustained.

The Appellate court decision sustained an unusual ruling by Judge David last January. Judge David, ignoring a decree of an Ohio court, denied a petition for a writ of habeas corpus brought by Stockham to obtain permanent custody of the children.

The controversy over the children began shortly after the parents were divorced in 1920. Mrs. Stockham, now Mrs. Theodore Schaedel, on the theory that one should do himself what he wants done well, began the study of law. A climax was reached in 1925 when she was arrested on a warrant charging her with kidnaping. A writ of habeas corpus brought her before Judge David, but by that time the father had returned to Ohio with the

As a result of her aggressive maternalism Mrs. Schaedel has much to be thankful for today. Her sons, John Stockham, 14 years old, and George Stockham, 12, will be with her to eat turkey. CHRISTMAS IN THE HOUSE

Furniture Takes on Added Charm at Christmas

The furniture section is an alluring place, now—full of unusual and practical answers to the gift problem. The shopper who has a definite thing in mind is almost certain to find it here, and for the one who is seeking inspiration, there are stimulating suggestions in abundance.

After Chippendale

Chippendale wing chair gives an air of comfortable luxury, with its spaciousness, its soft, down-filled cushion, its handsome cover of mellow green damask. \$67.50.

A coffee table in the Louis XVI. design is true to the period in its delicate simplicity of line and its tasteful carving. It has a marble top. Specially priced at \$26.

Sixth Floor, Wabash,

Early American Influence Lends Interest to a Secretary Desk

A secretary of the Colonial type, in brown mahogany, has that pleasing absence of unnecessary detail which is so charming a feature of Early American design. It has the sturdy grace of the period, too, and will adapt itself readily to almost any room scheme. It is priced at \$72.

After Duncan Phyfe

A small console table, of exceptionally graceful lines, comes in Salem mahogany finish—a rich, light shade—and has a base of Duncan Physe design. Priced at \$15.

A tilt-top table of brown mahogany is the sort that will fit in agreeably almost anywhere. The top is an oval, and the base is suggestive of Duncan PLyfe. \$18.

Sixth Floor, Wabash

In Historic Phases Or in the Modern Manner

Old-world artistry shows its impressions, or the note of the modern has touched many of these pieces.

Lamps—a Choice Collection

Floor lamps in soft antiqued metals, table lamps in crude or delicate potteries have shades to accent the tradition of old or new. Prices—from \$15 to \$300.

Picture Frames—Etchings

Many sizes, \$5 to \$35. Etchings in black, white and colors, \$5 to \$40. Desk sets are priced from \$5 to \$60.

Jade Trees Always Lovely

Are interesting from \$7.50 to \$55. Lovely boxes and other articles show the artistic colors and technique of Chinese art.

Crystal and Glass At Christmas We Lay Beauty on the Table

Modern usage of china and glass permits the blending of color and texture to make a table of artistic and personal effect.

Sparkling Swedish Crystal

Swedish stemware in Rock crystal, beautifully cut. Delicate yet with a richness which may grace the most formal service. Goblets are \$90 dozen.

Royal Cauldon Ware

Dinner service in enamel decoration. Dinner plates, \$65 for the dozen. Afterdinner coffee cups, \$50. Tea cups, \$55.

it Dartmouth had beaten us that day it would have gone on to another good season. I was sorry to have missed the Holy Cross game this year because I always like to play in it. They hit hard, but somehow no one ever is injured.

"Failure to win that Holy Cross game put the boys right on edge for Yale. All through the season the boys had admirable spirit. After the Army game when we had dinner with the coaches at the Varsity club I never saw a less beaten group of athletes.

"I make it a practice to eliminate the sports pages from my reading the sports pages from my reading once the football season starts. Frequently it is quite a temptation to read about the games, but I managed to conquer it until after the Yale game. I examined and followed the charts of the games, but without having done any reading I sort of lost touch with any reading I sort of lost touch with the way things were going and I have been a trifle surprised to hear that Cagle had been rated so highly. "Cagle couldn't have played his best against Harvard because I distinctly recall that I rated Murrell as a much better back at the time. I think that Scull is the best individual player we encountered all during the season. There are so many after him that I can't say which player I rate as second to him."

SMASHES WYORK TO CHICAGO
SMOM NEW YORK TO CHICAGO N 18 hours, 591/2 minutes, a stock Franklin Airman Limited Sedan, driven by Cannon Ball Baker, dashed from New York to Chicago for a new world's record. This amazing 840mile run, on November 20th, which Western Union Officials checked, beats the previous official automobile record by 7 hours, 501/2 minutes. It requires 20 hours for the fastest limited trains to travel between these two great metropolitan cities.

> With the exception of the last 70 miles, the entire distance was driven in a heavy rain and snow storm. Eighty miles were driven over a dirt and gravel detour which was badly cut up and full of chuck holes. Cannon Ball Baker said at the finish, "This record provides overwhelming evidence of the ability of Franklin to maintain extremely high rate of speed and testifies to the dependabil

ity of the air-cooled motor and to the safe, sure control of the Franklin car."

Recently Franklin broke the coast-tocoast and return record by traveling the 6692 miles in 61/2 days. Other Franklin triumphs include a climb to the top of Pike's Peak with no special provisions for cooling the motor. A new record up Lookout Mountain —46% steeper than Pike's Peak. A record up Mt. Washington—America's steepest accessible peak. And three records up Mt. Mitcheli—highest peak east of the Rocky Mour

If you will drive the new Airman Limited, you will immediately recognize supreme riding comfort, sump-tuous interiors and the meaning of record-performance to everyday driving. All in all, Laurieus Fast Travel will be revealed to you for the first time. The sedan is priced at \$2790 at Syracuse:

Splendid Recipe To Stop A Cough That "Hangs On"

The best cough remedy that money could buy, can easily be made at home. It saves money and gives you the most reliable, quick-acting medicine you ever used. The way it takes hold of stubborn coughs and chest colds, giving immediate relief, is astonishing.

Any druggist can supply you with 2½ ounces of Pinex. Pour this into a pint bottle, and fill up with plain granulated sugar syrup or strained honey. It's no trouble at all to mix, and when you once use it you will never be without it. Keeps perfectly and tastes good—children really like it.

It is surprising how quickly this home-made remedy loosens the germinaden phlegm, and soothes and heals the inflamed membranes. At the same time, it is absorbed into the blood, where it acts directly on the bronchial tubes, and helps the system throw off the whole trouble. Even those severe coughs which usually follow the "fin", are primptly ended.

Finex is a highly concentrated compound of genuine Norway Pine, containing the active agent of creosote, in a refined, palstable form. Nothing known in medicine is more helpful in cases of severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

FLETCHER, ONCE ATLANTIC FLEET CHIEF, IS DEAD

New York, Nov. 28.—[Special.]—Admiral Frank F. Fletcher, U. S. N., retired, one time commander in chief of the Atlantic fleet, and stanch advocate of a "bigger and better" navy, died today in St. Luke's hospital. Admiral Fletcher was 73 years old and had been ill for several months.

An operation was performed Saturday and appeared to be successful, but early today the admiral began to sink rapidly.

He leaves a widow, Mrs. Susan H. Fletcher, and two children, Mrs. Reginald W. Hubbell and Alice S. Fletcher. The naval exploit for which Admiral Fletcher was most famous was the sizure and occupation of the city of Vera Cruz, Mexico, in April, 1914, when President Wilson decided to take sunitive measures against Huerts, the then president of Mexico.

It was shortly after the incident that Secretary of the Navy Daniels ecommended Fletcher for command of the Atlantic fleet, succeeding Adultal Badger.

NEW RIVER SPANS

Plans for the outer drive bridge and the Wabash avenue bridge were discussed yesterday by government engineers and steps, taken to advance completion of both spans. City and navigation interests seemed to agree for the first time that both bridges were necessary and beneficial.

The shipping interests objected to an abutment on the Wabash avenue bridge which would extend nine feet into the river on the south side. They declared that navigation for larger boats would thus be made almost impossible because of the bend in the river. They suggested that either the span be lengthened enough to eliminate this objection or the abutment on the north side be lengthened to energy.

i's all right," explained Hugo. "Mrs. Hallett is going to post it."

Bunny gave Mrs. Hallett a quick look as she set about tidying the Good Fellows. Act today, Good fellows. Act today, Good fellows and the newspapers, then winked solemnly at Hugo behind his secretary's back, and settled down to read. Hugo watched her changing face, his own lighting when she smiled and falling into faint anxiety when the

smile faded.

She finished it as last and sat quite still for a moment, then jumped to her feet and gave it into Mrs. Hallett's hand.

"Just the thing," said Bunny handsomely. "Thanks."

There was a doubtful line between Bunny's eyes, however, and she stood with her hands in the pockets of her short coat staring at the other girl.

"Look here," she said suddenly, "I suppose you won't let the cat out of the bag?"

The Hound, hearing a word of interest to a dog, cocked an ear, but Bunny put out a hand and folded it down again, mechanically, her eyes upon Mrs. Hallett, who had turned slowly scarlet.

Thanksgiving day is shelved.

Beginning today, Good Fellows, make arrangement to enlist immediately and help along the worthy cause in behalf of poor children.

Prompt action will greatly aid the Good Fellow department.

Christmas activities of Good Fellows

are not entangled with reams of red tape. The Good Fellow movement is "What, Bill?" asked Bunny.

"Bill? Certainly not. Hugo, my child. I've been turned into a codher since I saw you last. There, now!"

"No?" cried Bunny. "Have Bill and Alison gone and done it?" den of misfortune on through Christ-mas time. But with little children it is different.

"Tou silly donkey," said Bunny with a shout of laughter. "I could have told you. Good lord, Hugo, do you realize what this means? Molly's standmother:"

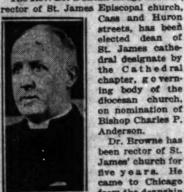

In her excitement Bunny fell off the arm of the chair into the seat and lay there hunched up, her face wreathed in smiles of elfin wickedness.

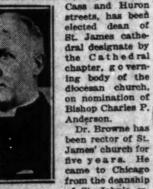

"I've a good mind to go and congratulate her," she said. "This is best news I've heard since Christmas."

Mrs. Hallett meanwhile had taken the letter out of its envelope and was waiting for an opportunity to give it to Bunny. Since the other girl's entrance she had become the perfect secretary.

"If you don't happen to know the Mostyne Anstruther gang, this may be all Greek to you," Bunny said to her in a friendly voice. THANKSGIVING DINNER

"This is about as lively and colorful a song drama the Grand Opera House has ever housed. It is a beautiful melodious panorama of German East Africa. The story is full, flushed and romantic enough for any ambitious operetta, but it is perhaps wisely attuned to the two-step and the fox trot."

"It is one of the biggest shows ever given since the better days of Kiralfy and old John Stetson of Boston. The curtain falls on one of the greatest theatrical excitements in town, as a center of massive pictorials, good drama, happy comedy, adorable music, all kinds of pretty women and delightful singers, stars of sensational magnitude, dandy, fancy, acrobatic dancing. It is worth while going to see and applaud.

HAROLD AGAIN!

Nowadays, when holiday rhymes with jolly day, many of us either know little or think little of why it is a holiday. Our holidays are more apt to be jolly days and rest days than days with a special meaning

It's all right that way. The days when man, woman, or child we don't work but can have leisure to play in are days to feel very jolly about. The only trouble is that we don't have

But it takes nothing away from the holiday feeling to know why that day is specially set aside. Many, indeed most, of our holidays are closely coned with our life as a nation, and we are more a part of our country if its holidays have special meaning and interest for us and for our children. In this era of hurry-on-to-the-nextthing it would be well for our children if we paused at each holiday and besides the fun we planned for them, helped them to realize the sig-nificance of the day.

Each one of our holidays is rich with meaning—but with a different kind of meaning for each one. The holiday that falls on this last Thursday of November is full of a pictur-esque dignity that the children should know about—not only in its back-ground but in the way in which we to observe it. That makes one back to the days of the town This day is set aside each year, as you know, by special proclamation. The President of the United States The President of the University of the President of the people of proclamation. By this the people of reminded of United States are rem sings or are to remind them-

It is a wise recommendation. Those of us who have children might do three wholesome and interesting things on Thanksgiving morning—read the Thanksgiving Proclamation aloud to our children, talk over with them the story of the first Thanksgiving, and let them think for a while of what are not religious in the accepted sense of the word, that need not deter you from letting your family dwell on their blessings. They can call it think-ing of all the things they have to be diad about or the things that make hem feel specially happy. You will be touched and amused at what they

We notice and talk a great deal of the things that we lack. Once a year it will do us and the children good to sing a little pæan of thanksgiving for the fine and interesting and beau-tiful things we have in our lives.

New York, Nov. 28.—[Special.]— The Hanover National bank, which for three-quarters of a century has been distinctively a "Wall street bankers' bank," decided today to pay a stock dividend of 100 per cent to its sharetution's capital from \$5,000,000 to \$10,-000.000. BY LEON STOLZ.

If we were a strictly logical people we should be at least as grateful to-day for our automobile and copper production as we are for our riches in corn and cattle. A good many citizens might even have a thought or two of thankfulness for the trend of the stock market. But we are not strictly logical, and though the economic or ganization of the country has seen profound and revolutionary changes since the first Thanksgiving, this is still the day of rejoicing in the productivity and the prosperity of our farms.

Tarm population in recent years has had a tendency to improve the situation of those who remained on the soil. They have less competition.

The improvement of farm machinery has been of great benefit in reducing costs at least to those farmers who have been in a position to buy or rent the new machines. Machinery will not solve problems of the farmer who is working inferior land or working land too far from the consuming centers, but it offers much hope to many farmers whose costs are now higher than they need be.

Trust company, as follows:

"Agricultural conditions have improved during 1928. While the betterment in the farmer's cash position is slight, and while gains in the market prices of meat animals and dairy prod ucts have been practically offset by declines in the market prices of the principal grains, fruits and vegetables there still remains the benefit of a

Volume of Turnover.

The volume of turnover is in eral decline in the wholesale price of for the year will show a gain, and the combined cash recipts of all farmers will, at least, exceed any year since 1925. Quite a number of the important crops exceed 1927 as well as the five-year average 1922 to 1926. Among these we find corn, winter wheat, durum wheat, all wheat, oats, barley, crain sorehums, white notations to be compared to the control of the con grain sorghums, white potatoes, tobac

hops, beans and peanuts.

'Crops falling below last year and also below the five-year average 1922 to 1926 include rye, flaxseed, and 1928 has been kinder to the farmers han any other recent year and current reports indicate that fall sown

but the ultimate gains from their source may prove the salvation of American agriculture. The approaching completion of the Mississippi waterway system promises increased income through lowered

freight rates. More important, perhaps, than any of these factors is the general realiza-tion throughout the country that the farmers are not getting their fair share of the nation's wealth. Manu-facturers and other business men in the cities are alive to the importance of farm purchasing power in the nation's economy. The best business brains in the country are at work on the farmers' problems.

Foreign bonds, sponsored by an experienced investment banking house and surrounded with adequate safeguards, offer an unusual opportunity to American investors. We believe that bonds of this character can properly be included in the average investor's holdings-the proportion depending upon his individual situation including the amount and nature of his other investments.

The accompanying reproduction of London Stock Exchange quotations of February 22, 1868, from the London Economist, shows that United States Government Bonds were offered sixty years ago at prices to yield from 734 per cent to more than 10 per cent. Those maturing in 36 years (1904) were offered to yield over 734 per cent and those maturing in six years (1874) to yield over 10 per cent. In 1865, immediately after the close of the Civil War, United States Government Bonds yielded even more. From 1865 to 1868 British Government obligations (Consols) yielded about 31/2 per cent,

Today United States Government Bonds of long maturity yield less than 31/2 per cent, while the government bonds of Great Britain, France and Germany yield from 43/4 to 61/2 per cent and Japanese and Argentine Government Bonds from 514 to 61/4 per cent. Bonds of foreign municipalities and foreign public utilities can

be had to yield approximately 7 per cent.

Investors who had confidence in United States Government Bonds in 1868 received an exceptionally high return on their money. Many informed investors today feel there is a similar opportunity in a number of the better grade of foreign bonds.

UNITED

Mutuality of interests, contiguity of territory served, and similarity of methods, policies and ideals has led to the uniting of the two largest investment banking houses of the Pacific Northwest. Murphey, Favre & Company, with head offices in Spokane and with offices in Portland and Seattle, have become associated with Drumheller, Ehrlichman & White, of Seattle and Tacoma, by entering into the "United Group" of Corporations. This consolidation unites two investment houses doing an annual business of approximately \$50,000,000, places under one management corporations with total paid-in capital of over \$12,000,000 and gives to the Northwest a large financial institution with offices in the chief cities of the three most populous districts of the Pacific Northwest. Murphey, Favre & Company and Drumheller, Ehrlichman & White will continue to operate separately without change of name or individuality.

Murphey, Favre & Company

Was established in Spokane in 1888 and for four decades has been a leader in the financial activities of the "Inland Empire." Expansion into important neighboring cities reveals the progressiveness and the growth of the organization. They were the organizers and are the managers of the Diversified Securities Corporation, an investment corporation modeled after British and Scottish investment trusts and having paid-in capital of over \$800,000.

Drumheller, Ehrlichman & White

Is recognized as a leading and progressive invest-ment institution in the Western Washington field. They have been active in most of the major bond They have been active in most of the major bond and stock financing originating in the region they serve. They conceived and have built up the "United Group" of Corporations, a group which now comprises nine affiliated corporations, constituting a strong and balanced financial structure, and having, with completion of this consolidation, a total capital in excess of \$12,000,000.

This consolidation should be of signal benefit toward the progress and development of the Pacific Northwest region. It will make possible the origination and banking of large bond and stock issues of substantial Northwest enterprises by a strong and strictly Northwest investment banking combination. It will be directly beneficial to the more than 1,600 stockholders of the "United Group" and will bring excellent investment opportunities to all Northwest investors.

Local spot basis was unchanged to %c lower. The country sold 32,000 bu

to arrive while shipping sales were 120,000 bu, and there is 250,000 bu

being loaded out from public elevators.
Oats showed fair strength from the

start and the finish was at the top with commission houses on the buy-ing side. The northwest bought De-

cember and sold May at 1c difference and local cash interests did the re-

verse. Rye showed more activity with some buying credited to foreign

account. Action of the Duluth market had some effect.
